## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 2. Claims 7-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Kelley et al.(6,000,033).
- 3. As per claim 7, Kelley et al. discloses providing a plurality of machines authorized to access the web server(see col. 5, lines 11-31); associating with each authorized machine an access table storing authorization information(see col. 5, lines 18-24); coupling one of the authorized machines to an access requester(see col. 6, lines 10-20); verifying that the requester is authorized to access a resource on the web server with reference to the access table associated with the authorized machine to which the requester is coupled; and allowing the requester to assume the identity of the authorized machine to which the requester is coupled after verifying that the requester is authorized(see col. 6, lines 10-31, col. 7, lines 25-40).
- 4. As per claim 8, Kelley et al. discloses wherein the plurality of authorized machines includes a first authorized machine that is authorized to access a first subset of resources at the web server and a second authorized machine that is authorized to access a second subset of resources at the web server, wherein the second subset differs from the first subset(see col. 6, lines 65-67, col. 7, lines 1-16).

5. As per claim 9, Kelley et al. discloses wherein the plurality of authorized machines includes a first authorized machine that is authorized to access a first subset of resources at the web server and a second authorized machine that is authorized to access a second subset of resources at the web server, wherein the second subset overlaps with the first subset(see col. 7, lines 3-15).

6. As per claim 10, Kelley discloses wherein the first and second subsets are identical(see col. 6, lines 65-67, col. 7, lines 1-16).
